Love love love this! Super funny and original.. This game is soooo much fun. Loving every minute of it. It has the right amount of action and humor to keep me going all night long. Shared it with my wife and she is loving it as much if not more than me. Do yourself a favor and get this game now and make sure to show love to Red Mouse Games for making such a fun title.. So, I wanted to try out the game as people were talking so highly about it. When I bought it and played it, I was impressed as the battle mechanics were pretty awesome. Though the fight against the 2 pigs was a bit harder than I expected. I had to use a lot of my poisoning stuff to finally get through. Currently the game is short. But there is being more added to it and I don't think there will be a game that is as good as this one for the low price of 1.59. Really, I love this game. Keep it up :). I very fun little game. kind of humor i haven't seen for a long while. I approve.
