## About This Content

A 30 page artbook presented in PDF format. The book contains artworks from both Unhack and Unhack:Destruction. Also included inside are thoughts on the design decisions made throughout this game.

After purchasing and downloading this DLC, the PDF can be found inside Unhack's root directory on Steam. To access this folder, right click on Unhack in your Steam library and select properties. Inside the pop up, pick the local files tab and click the browse local files button. You should see the PDF in the folder that appears.

Thank you for the support, and I hope you will enjoy the read!

English

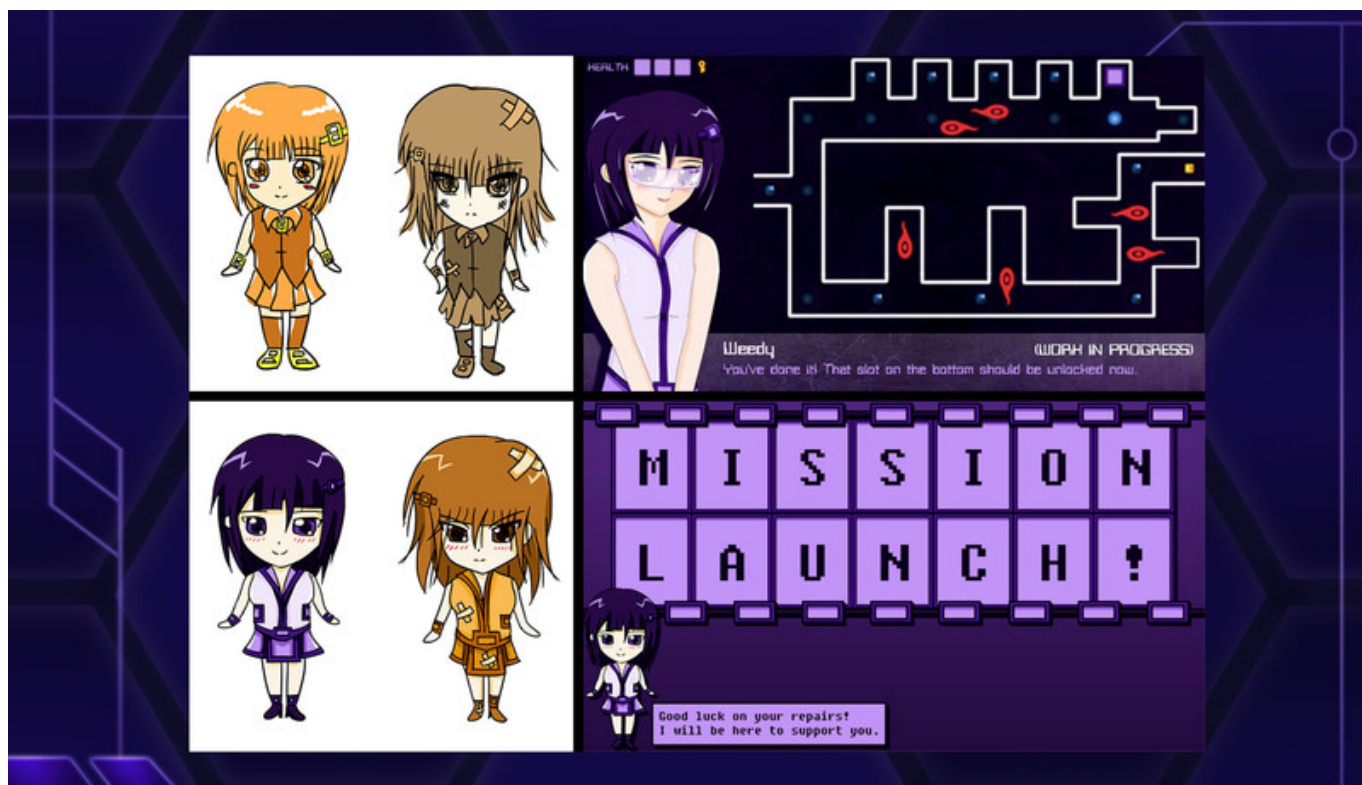

**Proto A** was created largely because I wanted the Destruction DLC to contain fresh content. That said, I hope her presence offers some insights on why A squared acted the way she did in the core game.

**Weedy** took pride in being Smash Security's official AI. Her obsession with staying perfect led to her downfall. Though she acted professional, she secretly enjoyed youthful things like fashion and collecting dolls.

**Unhack** was originally planned to be a horror game featuring a rogue AI named Shelfie. After several iterations, the game evolved into what it is today. In truth, mixing story with gameplay prevented me from telling a fully fledged tale, but I have no regrets about it.

Great artbook! I loved the explanations about the character's concept. They were interesting!
